425 copies of this public document were produced by the Training Resource & Information Center, Developmental Disabilities Division, at an estimated cost of \$.59 per copy, for a total cost of \$250.00 which includes \$250.00 for printing and \$.00 for distribution.

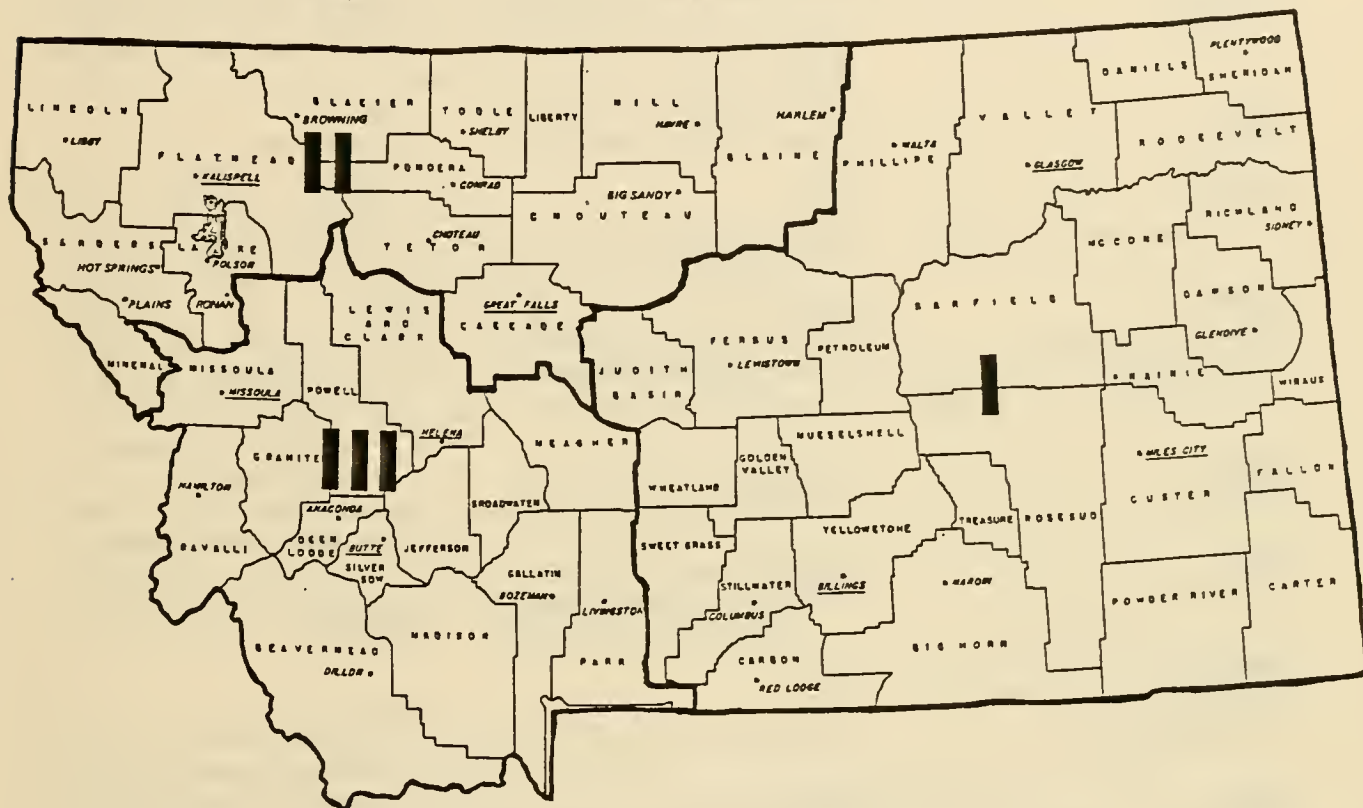

Directory compiled by: Marlene Kennedy and Linda Worsdell, June 1987.

PURPOSE OF DIRECTORY

This alphabetized address and telephone directory lists organizations and agencies that provide services and/or support to persons in Montana with developmental disabilities. A list (by area and city) of contracted community-based service programs is provided on page 2. The service definitions on pages 15 and 16 briefly describes each of the services contracted from the Developmental Disabilities Division, Department of Social and Rehabilitation Services. The service and/or subject index, pages 17-20, provides a convenient referencing system.

NOTE: For ease in identifying contracted service programs in the Address and Telephone Listing, they are listed with their area location. Non-contracted programs, or other organizations, are indicated by an asterisk (*).

Map of D.D. Division's Three-Area Administrative Structure

SERVICE DEFINITIONS
(Defined by the Developmental Disabilities Division)

The community-based service system includes a variety of different types of service programs to better meet the individualized needs of the persons served. These individuals have a right to receive training and basic care in the least restrictive, most normalized community setting according to their capabilities. The various types of services are designed to provide different levels of supervision, dependent upon the needs of individual persons. Larger cities generally have a more extensive array of different types of service programs while smaller towns are usually more limited in the services available. The service definitions listed only include services contracted for by the Developmental Disabilities Division/SRS.

DAY SERVICES:

Intensive Day - Provides day training services to adults who are not ready for vocationally oriented programs. Many of these clients do not have all primary self-help skills, some have physical handicaps and some have severe maladaptive behaviors. These programs must have higher staff/client ratios to serve clients with more intensive training needs. There are 5 intensive day programs, located in Helena, Great Falls, Butte, Havre and Billings. The goal of this service is to prepare the clients to move to regular vocationally oriented day services.

Work Activity Centers - These services are provided to adults and include the majority of day programs in the state. These programs provide a range of services from functional academics job skill training and actual work for which clients receive reimbursement for their production. There are 26 work activity centers in Montana. The goal of this service is to prepare clients to move to sheltered workshops, rehabilitation programs or competitive employment.

Workshops - These services are provided to clients to 7 facilities which have joint funding. These programs provide services similar to work activity centers but generally have more specific work available for clients and easier access to rehabilitation services and potential job placements. The goal of this service is to prepare clients for competitive employment.

Supported Work/Job Placement - This service provides job placement for clients into competitive employment in the community. Training for the job and follow along services are provided. This service exists in Billings, Bozeman, Helena, Kalispell, Great Falls and Missoula.

Senior Day Programs - These programs are not vocationally oriented, but rather provides training and activities more specific to the needs of the elderly, such as socialization skills, leisure skills, community activities and maintenance of self-help skills. These special services better meet these clients need for a more relaxed, flexible program with less emphasis on production. There are 4 senior day programs, located in Helena, Great Falls, Billings and Butte.

RESIDENTIAL SERVICES:

Services to Families - Family training, respite and specialized family training services are provided to natural and foster parents with developmentally disabled children. There are 6 primary service programs providing outreach services to developmentally disabled children and their families. They are located in Glasgow, Miles City, Billings, Great Falls, Helena and Missoula. Each of these programs provide outreach services in multi-county areas. **Family Training** - provides assistance to parents in training their own child. **Respite Services** - provides for temporary relief periods to parents from the continuous care of a disabled family member. **Specialized Family Care** - provides extra support services for natural and specialized foster homes to better enable them to keep their children at home.

Children's Group Homes - These homes are intended to serve only children who cannot remain in natural or foster homes. Many of these children have serious physical and medical disabilities, most are learning primary self-help skills like feeding and dressing, and some have serious maladaptive behaviors. Without these homes, there would be few alternatives for these children except placement in nursing homes or institutions. There are 11 children's group homes.

Intensive Training Homes - These homes are needed to serve adults who have very low self-help skills or have serious maladaptive behaviors and cannot be served in the typical 8-person group home. These homes provide a more intensive level of training and supervision with fewer clients and a higher staff/client ratio. The goal of this service is to prepare the client to move to a less restrictive, regular adult group home. There are 13 intensive training homes.

Adult Group Homes - The majority of adults receiving residential services are living in typical model 8-person group homes, with two staff. Training is provided to help clients become more independent; such as cooking, housekeeping and leisure skills. The goal of this service is to enable clients to move to transitional or independent living. There are 49 adult group homes in the state.

Senior Group Homes - These homes are intended to serve the elderly. Training is provided, with the primary intent to maintain the individuals' skills. There are 4 senior group homes each serving 8 individuals with two homes located in both Helena and Great Falls.

Transitional Living Services - This service was developed to provide an intermediate step between group home and independent living and promote movement out of the group homes. This service model provides staff to train and supervise the clients who are more responsible for doing their own cooking, shopping and cleaning. The clients live in congregate apartments with a staff person living at the complex for supervision. There are 13 transitional living programs.

Independent Living Training - Provides support services to enable clients to live in their own apartments. This service provides staff to visit these clients as needed on evenings and weekends to provide training in independent living skills, like menu planning and money management. Staff do not live at the apartment complex. The goal of this service is to prepare clients to live independently in the community. There are 22 independent living training services.

SUPPORT SERVICES:

Adaptive Equipment - The Division contracts for statewide adaptive equipment and consultation services for physically handicapped, developmentally disabled persons. The program staff design and provide specialized equipment, such as wheelchairs. The main office is in Helena with satellite offices in Kalispell and Billings.

Evaluation and Diagnosis Services - These services provide comprehensive evaluation services to determine handicapping conditions and recommend needed treatment and training services. There are 3 programs funded by the Division, located in Missoula, Billings and Miles City.

Supplemental Training and Support Services (OPT) - This program provides supplemental training and related services such as physical therapy and speech therapy to pre-school children using Chapter I funds provided through P.L. 89-313 and P.L. 97-35.

Transportation - This service is needed to get clients to day training programs for their residences.
